

JANJAM CHAITHANYA

☎ +91-9059464083 ✉ chaithanyajanjam@gmail.com  [Chaithanya Janjam](#)  [ChaithanyaJ](#)

Career Objective

Aspiring Software Engineer with strong problem-solving skills and a solid foundation in front-end development, data structures, and core computer science, eager to contribute to real-world projects and grow in a collaborative engineering environment

Education

Jawaharlal Nehru Technological University, Kakinada <i>Bachelor of Technology in Computer Science and Engineering (CSE)</i>	2023 – 2027(Expected) <i>CGPA: 8.51</i>
Sri Chaitanya Junior College, Madhurawada <i>Senior Secondary Education (XII)</i>	2021 – 2023 <i>Marks: 977/1000</i>
Sri Chaitanya School, Kommadi <i>Secondary Education (X)</i>	2020 – 2021 <i>Marks: 597/600</i>

Projects

ML-Based Career Recommendation System

- Developed a machine learning-based recommendation system that analyzes user skills and suggests the top **3–5 relevant job roles** using similarity-based ranking techniques.
- Implemented **TF-IDF vectorization** and **cosine similarity** with Scikit-learn to calculate skill-to-job relevance and generate personalized recommendations.
- Applied NLP preprocessing techniques including **tokenization**, **stopword removal**, and text normalization to improve recommendation quality.
- Processed and matched job-role datasets stored in structured files, enabling efficient retrieval and ranking of career opportunities.
- Designed a responsive web interface using HTML, CSS, and JavaScript to collect user skills and display recommendation results interactively.
- Tools and Technologies: **Python, Scikit-learn, Pandas, NLP, TF-IDF, Cosine Similarity, HTML, CSS, JavaScript**

Todo Dashboard with Analytics

- Engineered a full-stack task management dashboard using React.js, Node.js, Express.js, and PostgreSQL, enabling end-to-end task lifecycle management.
- Implemented CRUD operations through RESTful APIs, allowing users to create, update, delete, and manage task statuses with persistent database storage.
- Built a real-time analytics module that visualizes completed and pending tasks using interactive pie charts developed with Recharts.
- Integrated PostgreSQL with Express.js APIs and managed asynchronous data fetching using Axios and React Hooks for efficient state management.
- Designed a responsive and modern user interface using Tailwind CSS, ensuring seamless usability across desktop and mobile devices.
- Tools and Technologies: **React.js, Vite, Tailwind CSS, Recharts, Node.js, Express.js, PostgreSQL, Axios, REST APIs**

Achievements

- Code360:** Solved **350+** problems. **Profile:** [ChaithanyaJanjam](#)
- LeetCode:** **Top 25 %**. Solved **100+** DSA questions. **Profile:** [ChaithanyaJanjam](#)
- GFG:** Solved **70+** problems. **Profile:** [chaithanyadzg9](#)
- AP EAPCET 2023: Secured **Rank 1419** out of **3.37 lakh** applicants.

Technical Skills

Languages: Java, Python, JavaScript, SQL

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: PostgreSQL

Libraries/Tools: Scikit-learn, Pandas, Axios, Recharts, Git, GitHub

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- **NPTEL:** Secured certificate in NPTEL Embedded Systems Design with score of 53%. [View Certificate](#)
- **GenAI & Agentic AI Workshop:** Participated in a 2-day workshop at BITS Pilani Hyderabad, gaining hands-on experience in multi-agent systems, vector databases, along with real-world AI agent orchestration [Certificate](#)
- **NPTEL:** Secured certificate in NPTEL Programming in Java with score of 77% (SILVER). [View Certificate](#)
